
Appendix P – Public Meetings

This appendix (Appendix P) includes details on the two public meetings held on February 26, 2020 and October 19, 2022. The focus of the meetings was to keep the public informed regarding project details and to receive public comments on the proposed action. Both meetings were held at the Air Zoo Aerospace & Science Museum (approximately 1.2 miles from the Airport) and were “drop in” events, allowing attendees to arrive any time between 5:30 PM and 7:30 PM. Both meetings were advertised in a local newspaper and on the Airport’s website for a minimum of 30 days prior to the events.

The meetings were informal, walk-through events where individuals had the opportunity to review maps and displays, ask questions, give feedback, and discuss the project with Airport staff and consultant team members. An opportunity to provide written comments was also available. Public comments have been incorporated into this EA where appropriate. Approximately 49 people attended meeting #1 and approximately 33 people attended meeting #2.

Also see **Appendix D - Early Agency & Tribal Coordination** for copies of agency coordination letters received from local, state, and federal agencies concerning the project.

Records of the two public meetings including public notices, affidavits, sign-in sheets, and public comments received are listed below.

Public Meeting #1 held on February 26, 2020

**NOTICE OF A PUBLIC INFORMATION MEETING
FOR
PROPOSED AIRPORT IMPROVEMENTS
AT THE
KALAMAZOO/BATTLE CREEK INTERNATIONAL AIRPORT
KALAMAZOO, MICHIGAN**

The Federal Aviation Administration has authorized the Kalamazoo/Battle Creek International Airport to explore the potential environmental impacts of a 1,150-foot extension of Runway 17/35 and realignment of Taxiway C. The proposed project would extend the existing 6,502-foot runway to an overall runway length of 7,652 feet (150 feet to the north and 1,000 feet to the south) and reconfigure Taxiway C at the approach end of Runway 17. A summary of the proposed improvements includes:

- Extend Runway 17 by 150 feet (north end) and extend Runway 35 by 1,000 feet (south end)
- Realign Taxiway C at the approach end of Runway 17
- Extend parallel Taxiway B to match the Runway 17/35 extension
- Relocate an existing railroad spur on the south end of the Airport, including land acquisition
- Obstruction clearing in both Runway 17 and Runway 35 approaches
- Preliminary aviation easements/land acquisition in both Runway 17 and Runway 35 approaches
- Relocate existing navigational aids
- Development of new approach procedures for Runway 17/35 to AC 150/5300-18B Standards
- Completion of a hazardous material investigation on acquired property
- Independent noise analysis to lift/modify the existing noise curfew

All interested persons are advised of a public information meeting being held by the Kalamazoo/Battle Creek International Airport on **Wednesday, February 26, 2020 from 5:30 PM to 7:30 PM at the Air Zoo Aerospace & Science Museum located at 6151 Portage Rd, Portage, MI 49002**

The purpose of the public meeting is to consider the social, economic, and environmental effects, including noise, of the proposed improvements and whether the improvements are in the public interest and consistent with the goals and objectives of the Airport.

The meeting will be an open house format with no formal presentation given. The meeting is a “drop in” event, so attendees may arrive any time between 5:30 PM and 7:30 PM. The event is open to the public and all interested parties are encouraged to attend. The meeting will be an informal, walk-through where individuals will have the opportunity to ask questions, give feedback, and discuss the project. Airport staff and consultant team members will be available to explain the required environmental process, anticipated project schedule, environmental findings to date, alternatives being considered, and the upcoming noise study required to lift/modify the existing noise curfew. Informative displays and maps will be available for review.

In compliance with the Americans with Disabilities Act, individuals needing special accommodations (including auxiliary communicative aids and services) during the meeting should notify Craig Williams, Kalamazoo/Battle Creek International Airport, by e-mail at cawill@kalcounty.com or (269) 388-3668 at least three days prior to the meeting.

The public is encouraged to submit written comments or concerns by mail or email. Comments must be received by **Friday, March 27, 2020** to be included in the project record. Send comments to:

Your Comments and Questions Here:

I don't like the idea of getting rid of the current noise curfew, it's already loud over our house at around 11pm. Why do we need this airport expansion anyways there's 2 major airports ~~near~~ within a 2-hour drive.

I'm completely opposed to eliminating the noise curfew. This will make it harder for us to sell our home in the future it will also drop our home values making us lose money.

What do we get in return??

Please tell us about yourself

REMOVING RUN-UP AREAS FOR RUNWAY 17/35
PISTON ENGINE AIRCRAFT NEED TO DO ENGINE
RUN-UP TO CHECK ENGINE OPERATION JUST
PRIOR TO TAKE-OFF. REMOVING RUN-UP AREAS
IS A SAFETY ISSUE. STOPPING ON A TAXIWAY
WILL HOLD UP ANY TURBINE OR JET AIRCRAFT
WHICH WILL CAUSE PISTON ENG PILOT TO RUSH
THEIR PRE-TAKE OFF CHECK LIST WHICH CAN
LEAD TO MISSING A ITEM OR NOT DOING A
RUN-UP WHICH IS DONE TO DETECT A POOR
PERFORMING ENGINE.

Please tell us about yourself

Public Meeting #1

Feedback Form

Your Comments and Questions Here:

• My remaining concern is the lifting of the noise curfew and once it's lifted based on current noise - what's to stop larger jets and planes from flying in all night.

• ~~What~~ I understand the point of lengthening the runway is for current safety of the planes on runway - being able to take off fully loaded. Is there no plan to bring in more flights? If there is a chance that this would cause airlines to want to fly bigger planes out of Kalamazoo - I feel a new location should be considered where neighborhoods are not affected. Maybe Battle Creek airport location? More green space - less neighborhoods.

Please tell us about yourself

Your Comments and Questions Here:

First, I would like to say, your communication with all of this was terrible I have already voiced my concern with the Airport director about the surveyors who came to my house unannounced twice without my permission.

Secondly I think its only fair you do an economic assessment. Obviously this project will be impacting you financially for the best. What about the impact of our home values?

Kalamazoo is a tight knit community and we like to be informed of whats going on. You will get far more from our community if you are open and honest.

Milwood is the best neighborhood ever!

Please keep us informed and know that this neighborhood is well established and well thought of. The properties have held there value over the years and hopefully the airport will not adversely affect that. I pray that people will be mindful and respectful of milwood and it's residents

Your Comments and Questions Here:

Our Milwood neighborhood is a well established community and it doesn't seem right for Noise Curfew to be removed. We already hear planes passing after kids bedtimes especially in the Spring and fall with windows open. We bought our House 2 years ago and hope the value goes up but with the noise of the planes coming in, our neighborhood becomes less desirable and our home won't even be worth what we paid for it. I am totally Against Removing the Noise Curfew and I am Sure our Neighborhood feels the same way.

Public Meeting #2 held on October 19, 2022

**NOTICE OF A PUBLIC INFORMATION MEETING
FOR
PROPOSED AIRPORT IMPROVEMENTS
AT THE
KALAMAZOO/BATTLE CREEK INTERNATIONAL AIRPORT
KALAMAZOO, MICHIGAN**

The Federal Aviation Administration has authorized the Kalamazoo/Battle Creek International Airport to explore the potential environmental impacts of a 1,150-foot extension of Runway 17/35 and realignment of Taxiway C. The proposed project would extend the existing 6,502-foot runway to an overall runway length of 7,652 feet (150 feet to the north and 1,000 feet to the south) and reconfigure Taxiway C at the approach end of Runway 17. A summary of the proposed improvements include:

- Extend Runway 17 by 150 feet (north end) and extend Runway 35 by 1,000 feet (south end)
- Realign Taxiway C at the approach end of Runway 17
- Extend parallel Taxiway B to match the Runway 17/35 extension
- Relocate an existing railroad spur on the south end of the Airport, including land acquisition
- Obstruction clearing in both Runway 17 and Runway 35 approaches
- Preliminary aviation easements/land acquisition in both Runway 17 and Runway 35 approaches
- Relocate existing navigational aids
- Development of new approach procedures for Runway 17/35 to AC 150/5300-18B Standards
- Independent noise analysis to examine the need/removal of the existing noise curfew

All interested persons are advised of a public information meeting being held by the Kalamazoo/Battle Creek International Airport on **October 19th from 5:30 PM to 7:30 PM at the Air Zoo Aerospace & Science Museum located at 6151 Portage Rd, Portage, MI 49002.**

The focus of the public meeting is to discuss the findings of the recently completed noise analysis and historical evaluations. Specifically, a noise analysis was completed that evaluated potential noise impacts of extending Runway 17/35 and lifting the existing noise curfew. In addition, the State Historic Preservation Office has determined that the Bloomfield Subdivision within the Milwood Neighborhood is eligible for listing in the National Register of Historic Places as a historic district. Required tree removals in the Milwood Neighborhood will result in an adverse effect to the eligible historic district. During the meeting, project team members will be available to discuss impacts to historically eligible resources and the mitigation measures preferred by Milwood residents.

The meeting will be an open house format with no formal presentation given. The meeting is a “drop in” event, so attendees may arrive any time between 5:30 PM and 7:30 PM. The event is open to the public and all interested parties are encouraged to attend. The meeting will be an informal, walk-through event where individuals will have the opportunity to review maps and displays, ask questions, give feedback, and discuss the project with Airport staff and consultant team members. An opportunity to provide written comments will also be available.

In compliance with the Americans with Disabilities Act, individuals needing special accommodations (including auxiliary communicative aids and services) during the meeting should notify Craig Williams, Airport Director, by e-mail at cawill@kalcounty.com or (269) 388-3668 at least three days prior to the meeting.

The public is encouraged to submit written comments or concerns by mail or email. Comments must be received by **November 21st** to be included in the project record. Send comments to:

Have you ever
watched "The Lorax" or
read it? by Dr. Seuss

Comments: I'm very concerned about amount of traffic increasing even though the aircraft may be less loud- it will still be loud (enough) and more frequent. I'm also very concerned about the tree removal necessary. So many of us love Milwood because of the trees. There is no doubt that property value will decrease.

I have had problems for years as more aircraft- many small + loud planes- are flying over my home on a very frequent basis conducting what I believe are maneuvers for WNU flight school or some other entity/agency that requires a number of take offs + landings for whatever reason. I have spoken to the airport director who expressed

(Please attach an additional sheet or use back of form if necessary)

Confusion about ~~what~~ my concerns. Which seemed odd to me. How do you not know what planes are flying in + out? Maybe it's from Duncan? I don't know but I ~~would~~ wish I had better answers to this concern and knew who to express my concern to.

Thank you.

~~A~~ This assessment serves to add all the more concern about where I live and causes me to wonder if I need to leave the home + neighborhood I love and lived the last 30 years.
